En la siguiente imagen puedes ver una transferencia no realizada por un problema habitual (**Error 404**). En este caso, prueba de nuevo después de unas horas, o mejor aún el siguiente día.

Si el problema continúa, contacta con el Soporte de Paxum en support@paxum.com

The screenshot shows the Paxum website interface. At the top, there's a navigation bar with links like 'My Account', 'Add Funds', 'Transfer Funds', 'Withdraw Funds', 'Invoices', 'Security', 'Merchant Services', 'Message Center (0)', and 'Between Accounts To Another Paxum Account Holder'. Below the navigation is a section titled 'Transfer Funds » Between Accounts'. A red error message 'Error 404' is displayed, followed by the text 'Funds were not transferred. Please try again later'. Underneath, there's a 'Transaction details' section showing a transfer from 'Current USD 2511.USD.C' to 'New Temporary MasterCard USD 2511.' with an amount of 'USD'. At the bottom of the page, there are links for 'FAQ', 'Website Terms', 'Platform Terms', 'Privacy Policy', 'Ewallet Terms', 'Cards Terms', 'Factoring Terms', 'Contact', 'Developers', 'Affiliates', and 'Visual Res'. On the right side, there's a social media sharing section with icons for Facebook, Twitter, LinkedIn, and Google+. A 'Paxum' logo is also present. A status bar at the top right indicates 'Personal Account User: Status: Verified - Active'.

La siguiente imagen muestra una transferencia completada con éxito

This screenshot shows the same Paxum website interface as the previous one, but with a successful transfer outcome. The 'Transfer Funds » Between Accounts' section now displays the message 'Your transfer funds between accounts request was successfully completed.' A blue 'Ok' button is visible below this message. The rest of the page, including the transaction details and footer links, remains identical to the failed transfer screenshot.

Para ver un extracto con todas las operaciones, selecciona “Statements” en el menú principal,
selecciona la cuenta, el intervalo de tiempo (All, Monthly, Date Range) y pulsa en **Search+**

El extracto puede ser exportado como CSV-Excel o PDF
